

Marketing Hub Guide

Boost your sales with coupons, deals, and promotional campaigns

The Marketing Hub - Your promotional control center

Marketing Hub Overview

The Marketing Hub is your one-stop shop for running promotions that drive sales. Create discount codes, BOGO deals, happy hour specials, and more - all with built-in analytics to track what's working.

Key Features

Feature	What It Does
Coupons	Discount codes customers enter at checkout
Deals	Automatic promotions (BOGO, happy hour, bundles)
Upsells	Suggest add-ons to increase order value
Analytics	Track performance and revenue impact

Creating Coupons

Coupons are discount codes that customers manually enter during checkout. They're perfect for email campaigns, social media promotions, or loyalty rewards.

The Coupons management page

Creating a New Coupon

1. Click **+ Create Coupon**
2. Enter a memorable coupon code (e.g., 'SUMMER2024')
3. Choose discount type: Percentage (%) or Fixed Amount (\$)
4. Set the discount value
5. Optionally add usage limits and expiry dates
6. Click **Create**

The Create Coupon dialog

Coupon Options Explained

Field	Description
Coupon Code	The code customers enter (auto-converts to uppercase)
Coupon Name	Display name shown to customers (optional)
Description	Internal notes about this coupon
French Translation	For bilingual support
Discount Type	Percentage (%), Fixed Amount (\$), or Tiered
Min Order Value	Minimum order total to use coupon
Total Uses	Maximum redemptions allowed
Per Customer	Limit uses per individual customer
Item Targeting	Apply to specific dishes or categories

Creating Deals

Deals are automatic promotions that apply without needing a code. Use them for happy hours, combo specials, or limited-time offers that create urgency.

The Deals page showing active promotions

Deal Types

Deal Type	Best For	Example
-----------	----------	---------

Buy One Get One	Moving inventory	Buy 1 pizza, get 1 free
Combo Deal	Increasing order size	Burger + Fries + Drink for \$12
Happy Hour	Slow period traffic	20% off drinks 3-5pm
Bundle Discount	Family orders	Family Pack: 2 large pizzas + sides
Limited Time Offer	Creating urgency	This weekend only: 30% off

Creating a new deal

Creating a New Deal

1. Click **+ Create Deal**
2. Select deal type (BOGO, Combo, Happy Hour, etc.)
3. Enter deal name and description
4. Set discount type and value
5. Optionally set date restrictions and item targeting
6. Toggle "Activate Immediately" or schedule for later
7. Click **Create Deal**

Analytics & Tracking

The Analytics dashboard shows you exactly how your promotions are performing. Track redemptions, revenue impact, and identify your most effective campaigns.

Campaign Analytics dashboard

Key Metrics to Watch

- **Total Redemptions:** How many times promotions were used
- **Revenue Impact:** Additional revenue generated by promotions
- **Conversion Rate:** Percentage of views that result in redemptions
- **Average Order Value:** Compare promoted vs. regular orders

Tip: Run A/B tests! Create two similar promotions with slight variations (e.g., 15% off vs. \$5 off) to see which performs better with your customers.

Marketing Best Practices

Coupon Strategy

- **Make codes memorable:** PIZZA20 is easier than XK7DJ2M
- **Set expiry dates:** Creates urgency and prevents indefinite discounting
- **Limit usage:** 'First 100 customers' drives faster action
- **Track sources:** Use different codes for email vs social media

Deal Timing

- **Target slow periods:** Happy hour deals for typically quiet times
- **Seasonal promotions:** Summer BBQ specials, holiday deals
- **Event tie-ins:** Game day combos, Valentine's dinner deals
- **Test and learn:** Start with smaller discounts and adjust

Quick Reference

Getting Started Checklist

- ☐ Select your restaurant location from the dropdown

- ☐ Review your current active promotions
- ☐ Create your first coupon for email subscribers
- ☐ Set up a happy hour deal for slow periods
- ☐ Check analytics weekly to track performance

Common Actions

Action	Where to Find It
